I am a freshly minted junior software engineer. Ten years of hospitality experience has left me with a passion for team-oriented work and an acute attention to detail. I've translated these passions into clean, effective code that can run alone or be integrated into a greater whole. I am equally content leading or following and hold collaboration, communication, and dedication in the highest regard.

Attention Exchange, Full-stack Software Engineer

2021-Current

Participated in the "phase 2" build for Benchmarking Company's survey data management platform. Helped in the ideation, design, build and launch of platform features, including:

- Unified Survey Data w/in Platform
- Historic Survey/Question Tagging and Unification
- New Suite of Data Tools and Interfaces
- Platform Integration

General Assembly, Remote — *Software Engineering Fellow*

2021

Participated in a full-time immersive Software Engineering course, completing in-class and personal projects focused on real-world applications of software engineering principles and best practices.

Developed a portfolio of individual and collaborative projects including:

- **Yahtzee**: (repo) A fully functioning Yahtzee app. (HTML, CSS, JavaScript)
- **UGame**: (repo) An interactive app in which users can favorite games, leave reviews, and even create new games to add to a master list. (EJS, CSS, JavaScript, Mongoose, MongoDb, Google OAuth)
- **Capital Gains**: (repo) An interactive app in which users can view senators' and representatives' public stock transactions through graph visualization populated with API's. (React, JWT, JavaScript, Express, Mongoose, MongoDb)
- **Bloom**: (repo) Bloom helps you easily track job opportunities. Maintain a lightweight CRM of contacts and companies so you don't get overwhelmed. And perhaps most exciting of all, Bloom helps you take action. Map your activities to job opportunities so you know exactly where you stand in the process, and what you need to do next. (Python, Django, React, PostgreSQL, JavaScript, and more!)

Asbury Automotive Group, Alpharetta, GA — *Sales Associate*

2020-2021

Sold Toyota's for one of the largest auto sales groups in the country. Consistently was one of the top sales people each month.

Empire State South, Atlanta, GA — *Bartender*

2015-2019

Worked and learned under Kellie Thorn in her bar program focused on hospitality, education and dedication.

Big Citizen, Atlanta, GA — *Bar Manager*

2017-2018

Helped run the bar for multiple locations for the restaurant group Big Citizen. Streamlined cocktail production and staff. Opened a holiday cocktail bar (Miracle) and grossed over $300k in sales over 5 weeks
